To Whom It May Concern:

Re: Heat and Cool Air Conditioning Limited

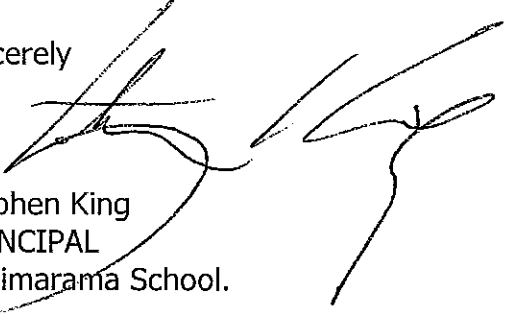

Our school has recently purchased six Heat Pump Air Conditioners that were supplied and installed by Heat and Cool Air Conditioning Limited.

We have been delighted with the work carried out by Heat and Cool Air Conditioning Limited. Their ability to evaluate our needs prior to purchase, and provide us with a recommended solution assisted us greatly in determining which company would be successful with their quotation.

Their tradesmen were efficient and thorough, being able to install the machines with minimal disruption to instructional time for our students.

I would highly recommend Heat and Cool Air Conditioning Limited as contractors that can; effectively determine the right air conditioning solution, install without fuss, and provide a comprehensive maintenance programme to ensure the maximum efficiency of your air conditioners.

Sincerely

Stephen King
PRINCIPAL
Kohimarama School.
